### Wearer profile

These child friendly<sup>1</sup> lenses are dual-purpose: they provide clear vision and help to control the worsening of myopia.<sup>1</sup>

Myopia can lead to severe ocular health problems later in life.<sup>2</sup>

OptiExpert™ v2.0

\*90% of myopic eyes respond to MiSight® 1 day treatment; ages 11-15 at start of wear, n=90. † Using measured and modeled data, pooled across ages (8-17), MiSight® 1 day slowed myopia progression by an average of approximately 50%. ‡ 12 months post-treatment, evidence indicates that no accumulated myopia control benefits were lost following three or six-years of MiSight® 1 day wear (on average, for children aged 8-15 at start of wear). Instead, eye growth reverted to expected, age average myopic progression rates. 1. Chamberlain P et al A 3-year Randomized Clinical Trial of MiSight® Lenses for Myopia Control. *Optom Vis Sci* 2019;96:556-567. 2. Tideman JW et al. Association of axial length with risk of uncorrectable visual impairment for Europeans with myopia. *JAMA Ophthalmol*. 2016;134:1355-1363. 3. Chamberlain P et al. Myopia Control Treatment Gains are Retained after Termination of Dual-Focus Contact Lens Wear with no Evidence of a Rebound Effect. *Optom Vis Sci* 2021;98E-abstract 215130.

### Description

One-day hydrogel lens to help control the worsening of myopia<sup>1</sup> in young patients.

### Technology

ActivControl® Technology.

### Features

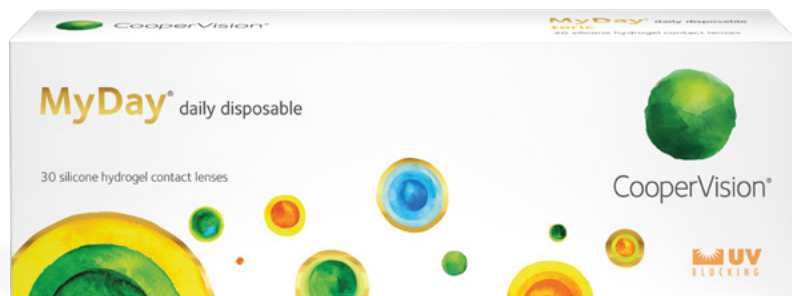

- ✓ One-day contact lens with ActivControl® Technology
- ✓ ActivControl® Technology slows axial length elongation and corrects refractive error<sup>1</sup>
- ✓ Designed for children who have a myopic prescription from -0.25 to -10.00DS.

### Benefits

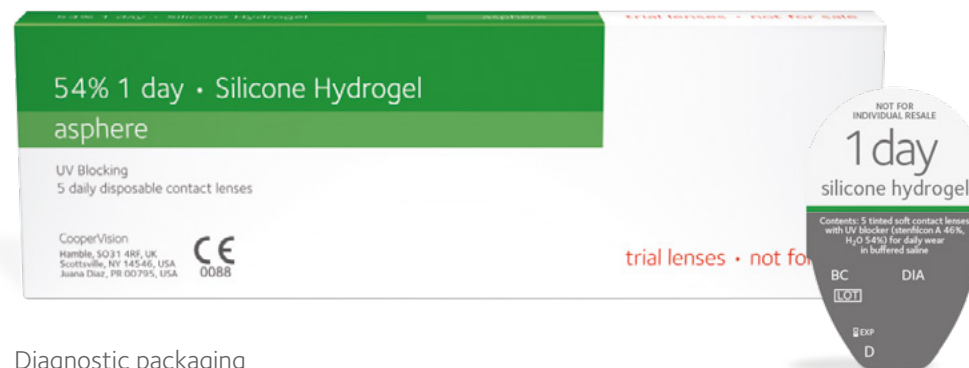

- ✓ Works for nearly all children with myopia<sup>\*3</sup>
- ✓ Cuts the worsening of myopia by half<sup>†4</sup>
- ✓ Benefits are proven to last after treatment has ended.<sup>‡5,6</sup>

### Specification

Material	Omafilcon A
Water content	60%
Base curve	8.7mm
Diameter	14.2mm
Centre thickness (@ -3.00DS)	0.089mm
Dk/t (@ -3.00)	28
Modulus	0.4 MPa
UV blocker	No
Power range	-0.25 to -6.00DS (0.25D steps) -6.00 to -10.00DS (0.50D steps)

### Wearer profile

These high-performance lenses suit wearers who want unsurpassed comfort, health and convenience for long and demanding days.

OptiExpert™ v2.0

### Description

One-day silicone hydrogel lens for myopic and hyperopic patients.

### Technology

Aquaform® Technology<sup>◇</sup>  
Aberration Neutralising System™

### Features

- ✓ High oxygen transmissibility
- ✓ Naturally and uniformly wettable
- ✓ High water content
- ✓ Low modulus
- ✓ Aspheric optics
- ✓ UV blocker\*.

### Benefits

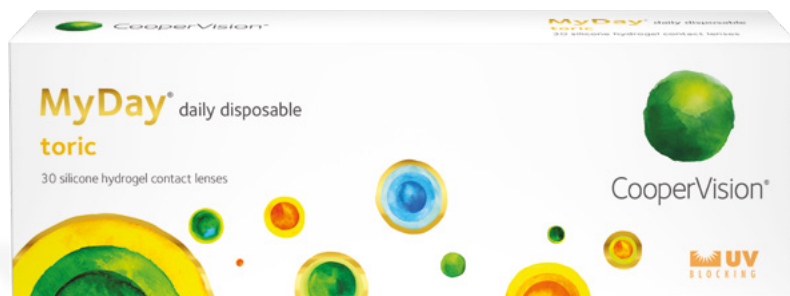

- ✓ Delivers unsurpassed comfort all day, every day
- ✓ Superb breathability to promote clear, white eyes\*\*
- ✓ UV-blocking\*
- ✓ Enhanced visual clarity with clear, crisp vision
- ✓ Superb handling
- ✓ High-performance lens in the convenience of a one-day lens.

\*Warning: UV-absorbing contact lenses are not substitutes for protective UV-absorbing eyewear, such as UV-absorbing goggles or sunglasses, because they do not completely cover the eye and surrounding area. Patients should continue to use UV-absorbing eyewear as directed. \*\*High oxygen transmissibility promotes clear, white eyes. <sup>◇</sup>Formerly known as Smart Silicone™ chemistry, MyDay® technology has been rebranded to align with that of Biofinity.® There is no change to the MyDay® lens material.

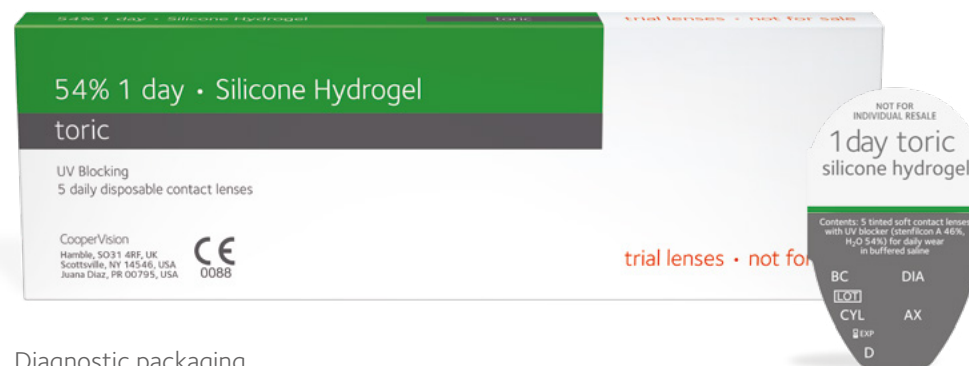

### Specification

### Wearer profile

These high-performance lenses suit wearers who want unsurpassed comfort, health and convenience for long and demanding days.

OptiExpert™ v2.0

### Description

One-day silicone hydrogel toric lens for astigmatic patients.

### Technologies

Aquaform® Technology<sup>o</sup>  
Optimised Toric Lens Geometry™

### Features

- ✓ Uniform horizontal ISO thickness for improved stability
- ✓ Optimised ballast toric design for a stable fit and minimal lens movement
- ✓ Large toric optic zone provides clear visual acuity
- ✓ High oxygen transmissibility
- ✓ High water content
- ✓ Low modulus
- ✓ UV blocker.\*

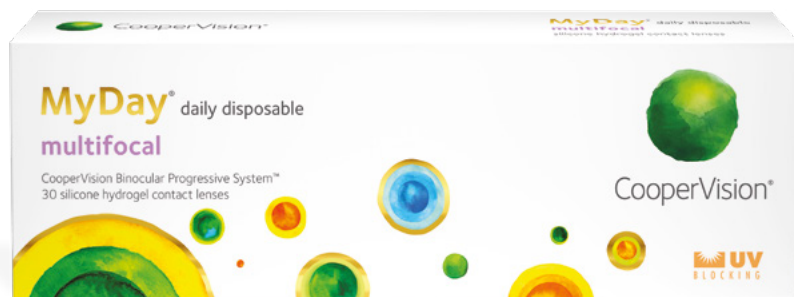

### Benefits

- ✓ Optimised Toric Lens Geometry™ design showed superior lens rotation vs. other leading toric lens designs<sup>o1</sup>
- ✓ Offers patients excellent vision stability
- ✓ Delivers unsurpassed comfort all day, every day
- ✓ Superb breathability to promote clear, white eyes\*\*
- ✓ UV-blocking\*
- ✓ Superb handling
- ✓ High-performance lens in the convenience of a one-day lens.

\*Warning: UV-absorbing contact lenses are not substitutes for protective UV-absorbing eyewear, such as UV-absorbing goggles or sunglasses, because they do not completely cover the eye and surrounding area. Patients should continue to use UV-absorbing eyewear as directed. \*\*High oxygen transmissibility promotes clear, white eyes. <sup>o</sup>Formerly known as Smart Silicone™ chemistry, MyDay® technology has been rebranded to align with that of Biofinity®. There is no change to the MyDay® lens material. <sup>o1</sup>In primary gaze. 1. Momeni-Moghaddam H., et al. Comparison of fitting stability of the different soft toric contact lenses. Contact Lens and Anterior Eye 37 (2014) 346-350.

Fitting guide

\*Warning: UV-absorbing contact lenses are not substitutes for protective UV-absorbing eyewear, such as UV-absorbing goggles or sunglasses, because they do not completely cover the eye and surrounding area. Patients should continue to use UV-absorbing eyewear as directed. ◊ Formerly known as Smart Silicone™ chemistry, MyDay® multifocal technology has been rebranded to align with that of Biofinity®. There is no change to the MyDay® multifocal lens material. 1. CVI data on file 2020. Prospective, double-masked, randomised, bilateral, one-week cross-over dispensing study with MyDay® multifocal; n=104 habitual MFCL wearers. 2. CVI data on file 2021. Prospective, subject-masked, randomised, bilateral, two-week cross-over dispensing study at five US sites with MyDay® multifocal; n=58 habitual multifocal contact lens wearers. 3. CVI data on file 2020. MyDay® multifocal spherical power range +8.00D to -12.00D. Based on Rx option combinations (sph & add) available across all one-day soft lenses in multifocal from four main manufacturers in UK, France, Germany and Italy Oct 2020. Cosmetic & Photochromatic CLs not included. Multiple base curve variants not included.

### Description

One-day silicone hydrogel multifocal lens for presbyopic patients.

### Technology

Aquaform® Technology◊  
Binocular Progressive System™

### Features

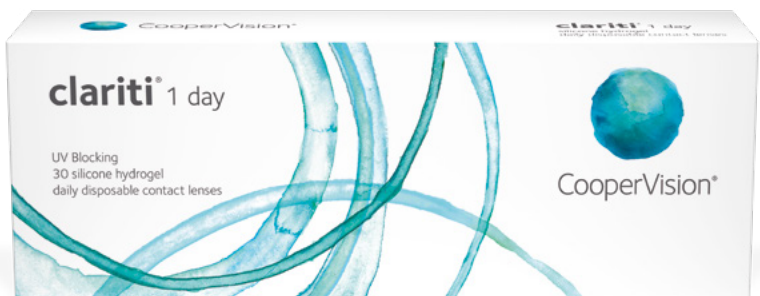

- ✓ Unique 3-add system which uses different lens designs to optimise vision for all levels of presbyopia<sup>1</sup>
- ✓ High oxygen transmissibility
- ✓ High water content
- ✓ Low modulus
- ✓ UV blocker.\*

### Benefits

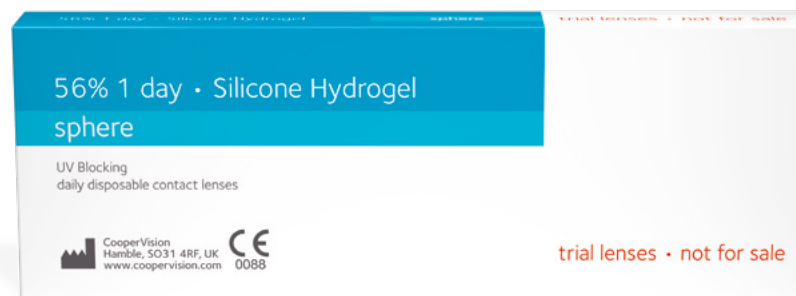

- ✓ Easy to fit, easy to establish, easy to optimise<sup>1,2</sup>
- ✓ Good handling
- ✓ Unsurpassed comfort and vision at all distances compared to other leading one-day multifocal contact lenses<sup>1,2</sup>
- ✓ The greatest parameter range of any one-day multifocal contact lens.<sup>3</sup>

### Wearer profile

For wearers who put a premium on comfort, health and vision, these high-performance one-month lenses are available in a wide prescription range.

OptiExpert™ v2.0

### Description

One-month silicone hydrogel lens for myopic and hyperopic patients.

### Technology

Aquaform® Technology  
Aberration Neutralising System™

### Features

- ✓ High oxygen transmissibility
- ✓ Naturally and uniformly wettable
- ✓ Optimum modulus
- ✓ Aspheric optics.

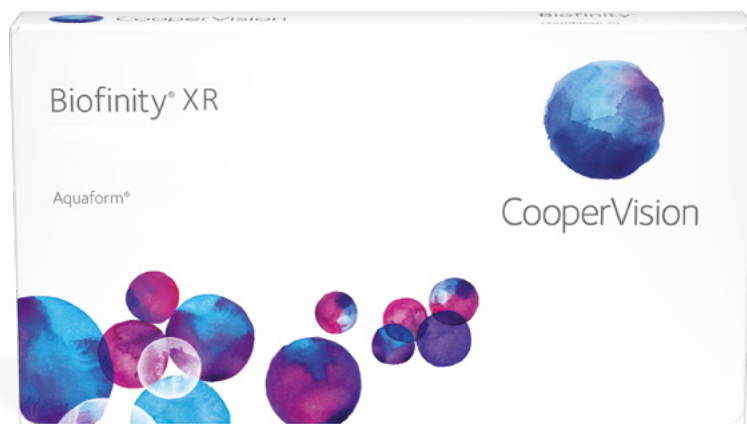

### Benefits

- ✓ Offers patients incredible comfort all day long
- ✓ Lens fits well and is gentle on the eye throughout the life of the lens
- ✓ Highly breathable for clear, white,\* healthy eyes
- ✓ Offers clearer, crisper, sharper vision that your patients expect and deserve.

### Specification

Material	Comfilcon A
Water content	48%
Base curve	8.6mm
Diameter	14.0mm
Centre thickness (@ -3.00DS)	0.08mm
Dk/t (@ -3.00DS)	160
Modulus	0.75 MPa
UV blocker	No
Power range	-0.25 to -6.00DS (0.25D steps) -6.50 to -12.00DS (0.50D steps) +0.25 to +6.00DS (0.25D steps) +6.50 to +8.00DS (0.50D steps)

### Wearer profile

For wearers who put a premium on comfort, health and vision, these high-performance one-month lenses are available in a wide prescription range.

OptiExpert™ v2.0

### Description

One-month silicone hydrogel lens for astigmatic patients.

### Technologies

Aquaform® Technology  
Optimised Toric Lens Geometry.™

### Features

- ✓ Uniform horizontal ISO thickness for improved stability
- ✓ Optimised ballast toric design for a stable fit and minimal lens movement
- ✓ Large toric optic zone provides clear visual acuity
- ✓ High oxygen transmissibility
- ✓ Naturally and uniformly wettable
- ✓ Optimum modulus.

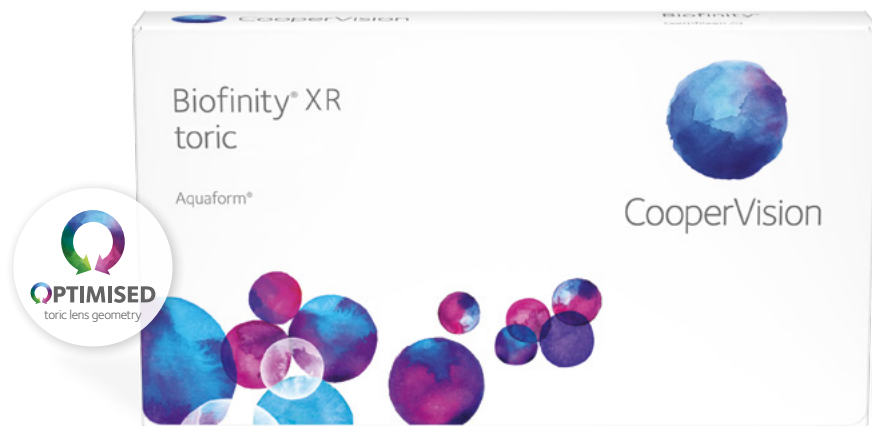

### Benefits

- ✓ Optimised Toric Lens Geometry™ design showed superior lens rotation vs. other leading toric lens designs\*\*1
- ✓ Offers the superior vision your patients with astigmatism expect and deserve
- ✓ Stays comfortable all day
- ✓ Delivers plenty of oxygen to your patients' eyes.

### Specification

Material	Comfilcon A
Water content	48%
Base curve	8.7mm

Fitting guide

### Description

One-month silicone hydrogel multifocal lens for presbyopic patients.

### Technology

Aquaform® Technology  
Balanced Progressive® Technology.

### Features

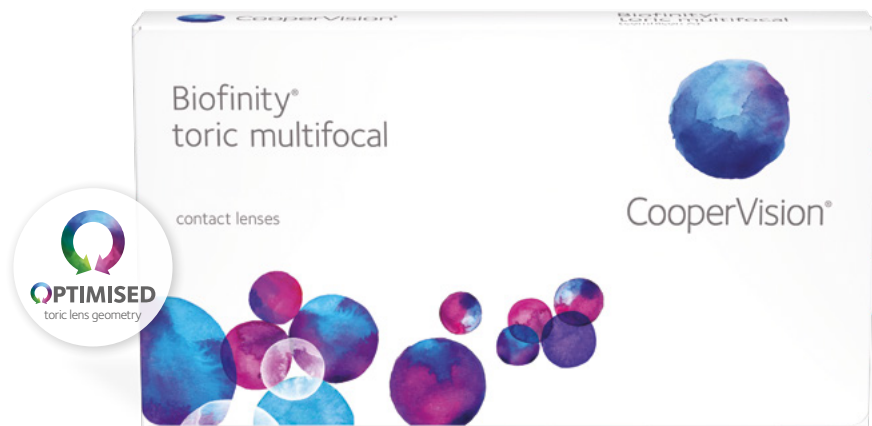

- ✓ Two different optical designs (D and N) to enhance and provide exceptional vision at all distances near, intermediate and far
- ✓ Lens design is further optimised for each sphere and ADD power
- ✓ High oxygen transmissibility
- ✓ Naturally and uniformly wettable
- ✓ Optimum modulus
- ✓ Streamlined fitting process.

### Benefits

- ✓ Allows for both a simplified and flexible fitting for presbyopic patients
- ✓ Allows for an individualised fitting for each wearer and eye.
- ✓ Enhanced, superior visual clarity at all distances, near, far or in-between
- ✓ High level of all day comfort
- ✓ Delivers plenty of oxygen to your presbyopic patients' eyes.

### Wearer profile

For wearers who put a premium on comfort, health and vision, these high-performance one-month lenses are available in a wide prescription range.

OptiExpert™ v2.0

### Description

One-month silicone hydrogel lens for myopic and hyperopic patients with extra optical support for digital device users.

### Technology

Aquaform® Technology  
Digital Zone Optics™

### Features

- ✓ Lens integrates multiple front-surface aspheric curves across the entire optical zone, simulating more positive power in the center of the lens.
- ✓ High oxygen transmissibility
- ✓ Naturally and uniformly wettable
- ✓ Optimum modulus.

### Benefits

- ✓ Helps ease accommodative burden as wearers move their gaze from on-screen to off-screen and back
- ✓ Helps with eye tiredness and dryness associated with digital eye fatigue.
- ✓ Offers patients incredible comfort all day long
- ✓ Lens fits well and is gentle on the eye throughout the life of the lens
- ✓ Highly breathable for clear, white,\* healthy eyes
- ✓ Offers clearer, crisper, sharper vision that your patients expect and deserve.

### Wearer profile

*As easy on the pocket† as the eye, our entry-level one-month lenses give wearers the freedom they want, when they want it.*

OptiExpert™ v2.0

Fitting guide

### Description

One-month hydrogel multifocal lens for presbyopic patients.

### Technology

PC Technology™  
Balanced Progressive® Technology.

### Features

- ✓ Multiple zones of vision correction
- ✓ Natural resistance to dehydration
- ✓ Biocompatible with the eye.

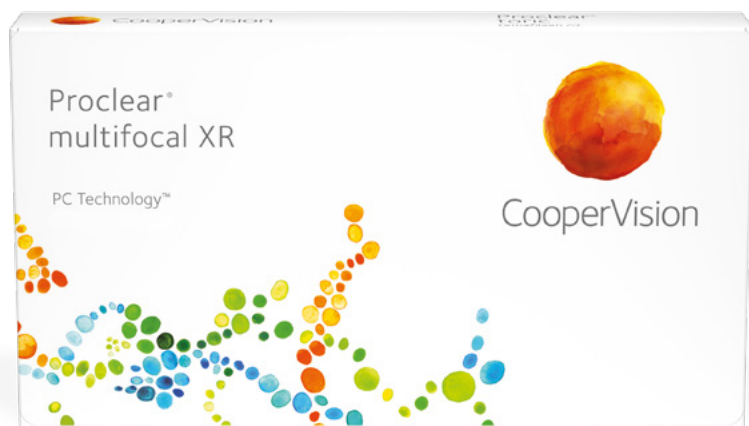

### Benefits

- ✓ Maximises binocular visual acuity near, far and in-between
- ✓ All day comfort
- ✓ Stays 96% hydrated throughout the day, even after 12 hours of wear
- ✓ Helps maintain more moisture and helps to address eye dryness.

### Specification

Material	Omaficon B
Water content	62%
Base curve	8.7mm
Diameter	14.4mm
Centre thickness (@ -3.00DS)	0.16mm
Dk/t (@ -3.00DS)	17
Modulus	0.4 MPa
UV blocker	No
Power range	+6.00 to -6.50DS (0.25D steps) -7.00 to -8.00DS (0.50D steps)
ADD powers	+1.00 to +2.50 (0.50D steps)

## Ordering online is quick and easy

- Go to [www.coopervision.co.uk](http://www.coopervision.co.uk) and select  Practitioner at the top right of the website.
- Click 
- If you are a registered user, log in using your email address and password, if you are a new user, create a login by clicking register.

- Select  Buy now to place an order.

### Benefit from:

24/7 ordering

Create/manage your patient registrations

Free freight when placing an online order for 16 revenue units or more for store delivery only

View order history

Consolidated store delivery when you check out your orders at the end of the day

Direct-to-patient delivery.

VisionXtra™ is the patient registration scheme from CooperVision that is designed to support patient retention.

- A FREE, simple way to manage your patients
- Direct-to-patient delivery with contact lenses and solutions together in one convenient pack
- The ability to create and release ‘trigger patient orders’ giving you more flexibility
- Hassle-free returns process
- 100% credit on product returns
- Automated patient order updates.

You can access the VisionXtra™ registration system via the Patient Management section of our E-commerce website.

OptiExpert™ v2.0 app is a free app and an essential tool for your practice, supporting your clinical decision making and patient management – helping make contact lens selection easier.<sup>^</sup>

**OptiExpert™ v2.0 is smarter than ever so you can do even more.**

OptiExpert™ is used by over 30,000 Eye Care Professionals across more than 80 countries, with 8,000+ downloads in the UK&I.<sup>‡</sup>

Click [here](#) to find out more.

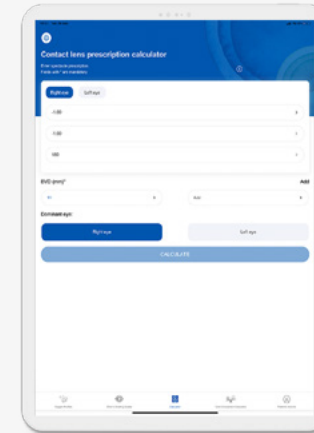

Download the **FREE OptiExpert™ v2.0 app** today.

Available for mobile and tablet devices or as a web app.

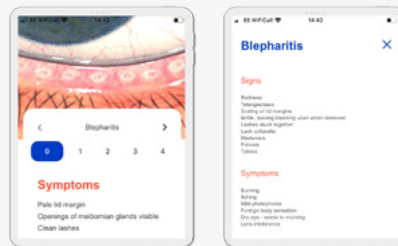

### Smart Prescription Calculator.

- Instantly turns virtually any spectacle prescription into a contact lens prescription
- Searches more options to give you even more product recommendations
- Save valuable chair time with accurate toric<sup>1</sup> and multifocal calculations<sup>2</sup>
- Making it easier for optical colleagues to preselect diagnostic contact lenses ahead of lens fitting.<sup>^</sup>

**4 calculators in 1**

- Sphere
- Toric
- Multifocal
- Toric multifocal

### Efron Grading Scales.

Readily accessible clinical reference.<sup>^</sup>

Enables quick and easy consultation of the well-known Nathan Efron grading scales to support contact lens patient management, complete with accompanying texts.

### Oxygen Profiles.

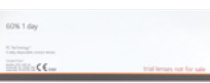

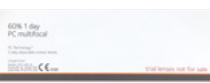

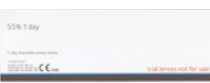

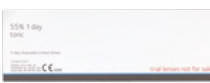

Effective clinical tool to simplify patient communications.<sup>^</sup>

Oxygen profile maps that show oxygen transmissibility over the whole lens which can demonstrate how different prescriptions, lens designs and materials influence this.

<sup>^</sup> OptiExpert™ is an educational, reference and information tool for Eye Care Professionals. Eye Care Professionals may choose to use the app in connection with their own patient evaluation but it is not intended to be relied upon for clinical decision-making. OptiExpert™ is not intended as and does not constitute medical or optometric advice nor is it intended to replace the patient evaluation performed by an Eye Care Professional. 1. MiSight® 1 day contact lenses are dual-purpose:

- they provide clear vision<sup>1</sup>
- they help to control the progression of myopia.<sup>1</sup>

**In 2021, the World Council of Optometry passed a resolution that publicly declares support for myopia management as standard of care.<sup>3</sup>**

**With new treatment options available, eye care professionals can now do more than just correct refractive error.**

Specially designed for children with myopia: providing clear vision and helping to control the progression of myopia.<sup>1,2</sup>

Available in sphere.

† Retail price is solely at the discretion of the retailer at all times. CVI commentary on price positioning is not meant to influence the price any retailer charges. \* Warning: UV-absorbing contact lenses are not substitutes for protective UV-absorbing eyewear, such as UV-absorbing goggles or sunglasses, because they do not completely cover the eye and surrounding area. Patients should continue to use UV-absorbing eyewear as directed.

- The widest range of prescriptions
- Most suited to full-time wear

**A lens for every routine, lifestyle, budget† and prescription.**

† Retail price is solely at the discretion of the retailer at all times. CVI commentary on price positioning is not meant to influence the price any retailer charges.

As easy on the pocket† as the eye, our entry-level one-month lenses give wearers the freedom they want, when they want it.

Available in sphere, toric, multifocal and multifocal toric lens designs.

For wearers looking for the perfect balance of comfort, health and vision at the right price.†

Available in sphere and toric lens designs.

For wearers who put a premium on comfort, health and vision, these high-performance lenses are available in a wide prescription range.

Available in sphere, toric, multifocal and toric multifocal lens designs.
