

# All In One Light

Highly effective multipurpose solution formulated for use with sensitive eyes.

Features	Benefits
Highly effective multipurpose solution.	Surpasses ISO disinfection standards.
Proven clinical superiority.	Patients receive a highly effective and comfortable solution for maintaining clean contact lenses.
Contains a lubricating agent.	Enhances lens comfort and stops lenses drying out.
Specially formulated for patients with sensitive eyes.	Very high levels of patient acceptance.
Multifunctional.	Removes typical build up of proteins, lipids and calcium, with proven efficacy against Acanthamoeba.
Suitable for use with all lenses including silicone hydrogel lenses.	Greater patient compatibility.

# Clinical Studies

## Freedom From Patient Reactions

In progressing the FDA submission in the USA for All In One Light, a 6 month clinical trial has been completed in 12 investigator sites in both the USA and Canada including 363 patients.

A comparison of All In One Light to Multipurpose and peroxide controls (slit lamp findings).
