

clariti[®] multifocal

CooperVision[®]
Live Brightly.[®]

Great value, high breathability and all-day comfort.

If you're over 40, noticing changes in your near vision, such as less sharpness when you're reading close up, and are looking for an affordable contact lens that'll keep you feeling good about your wallet and your eyes, look no further than CooperVision[®] clariti[®] multifocal contact lenses. They support your eye health with a built-in UV blocker* and a soft silicone hydrogel material that delivers 100% of the oxygen your eyes need.^{†1} clariti[®] multifocal contact lenses are also designed to help you see clearly near and far and provide a comfortable lens-wearing experience at a price that'll make you smile.

Corrects

 Presbyopia

Features & Benefits

- Designed to help you see clearly near and far.
- Soft silicone hydrogel lens material with high breathability helps keep your eyes healthy.^{†1}
- WetLoc[®] Technology and high water content help keep your contact lenses moist, supporting excellent all-day comfort.
- UV blocker helps protect your eyes against the transmission of ultraviolet rays, helping support your eye health.*

* Warning: UV-absorbing contact lenses are not substitutes for protective UV-absorbing eyewear, such as UV-absorbing goggles or sunglasses, because they do not completely cover the eye and surrounding area. Patients should continue to use UV-absorbing eyewear as directed.

† During daily wear.

‡ With higher oxygen delivery than hydrogel materials, SiHy contact Lenses minimize or eliminate hypoxia-related complications during daily lens wear.
